Mountain Weather Forecast

Northwest Highlands

Including Sutherland, Ben Wyvis, Wester Ross, The Cuillin, Glen Affric, Glen Shiel and Knoydart
Forecast valid from 06:00 on Saturday 01 Apr 2023 until 23:59 on Sunday 02 Apr 2023

Forecast Issued on Saturday 01 Apr 2023 at 02:23 by Met Office Aberdeen

Confidence: Low for details over the weekend due to a slow-moving weak frontal zone which may affect the area, then high.

Headline for Saturday 01 Apr 2023: A mainly dry day. Mostly cloudy in areas more exposed to the east, but brighter over the north and west. Mostly light winds, but stronger in the far northwest.

Forecast for Saturday 01 Apr 2023

Weather: The eastern side of the NW Highlands including Ben Wyvis mainly cloudy with some hill fog, but dry. Sunny spells in the north and west becoming more limited as cloud builds up in places.

Chance of cloud-free hill tops above 800m: 80% in west, 40% in east.

Low cloud and visibility: Overcast in east, with cloud bases varying between 500 and 900m, tending to lift slightly. In west, patchy cloud at first then gradually becoming broken but with higher bases, mainly above the tops here. Good visibility away from the cloud during the day.

Met Office Aberdeen Meteorologist's View
Note the lower freezing levels.

Forecast for Sunday 02 Apr 2023
Weather: A generally dry day, some bright or sunny intervals especially in the north. More cloud across Knoydart and Glen Affric and North Argyll bringing the chance of some hill fog and perhaps the odd patch of light rain or summit snow flurry, but low confidence in the cloud distribution.

Maximum wind: Variable direction 5-10mph.

Chance of cloud-free hill tops above 800m: 80% in north, 40% in south.

Low cloud and visibility: Areas of cloud at 600-900m in south, more broken and higher based in the north with mostly good visibility away from the cloud.

Temperature: **Glens:** Plus 3 Celsius rising to 9 Celsius.
At 800m: Plus 3 Celsius.
Freezing level: 1100m.
